Constituent of Symbiosis International (Deemed University), Pune

Name of Student: ARPIT CHAKRABORTY	PRN: 25070122047
Subject: Programming with Java	Sem: III AY: 2026-27
Assignment No: 8	
TITLE: Write a Java program to demonstrate the use of the super keyword in inheritance.	

1. Create an Employee and Manager program where Manager accesses Employee details using super keyword.

```
Manager.java X
Manager.java > Manager
1  class Employee {
2      String name = "Rahul";
3      int empId = 101;
4  }
5
6  class Manager extends Employee {
7
8      void display() {
9          System.out.println("Employee Name: " + super.name);
10         System.out.println("Employee ID: " + super.empId);
11     }
12
13     Run | Debug
14     public static void main(String[] args) {
15         Manager m = new Manager();
16         m.display();
17     }
18 }
```

OUTPUT:

```
[Running] cd "c:\Users\Arpit\java_assignments\" && javac Manager.java && java Manager
Employee Name: Rahul
Employee ID: 101

[Done] exited with code=0 in 1.431 seconds
```

2. Develop a Vehicle Insurance System where child insurance classes access parent vehicle information using the super keyword.

```
J Insurance.java X
J Insurance.java > Insurance
1  class Vehicle {
2      String vehicleNo = "MH12AB1234";
3      String vehicleType = "Car";
4  }
5
6  class Insurance extends Vehicle {
7
8      void display() {
9          System.out.println("Vehicle Number: " + super.vehicleNo);
10         System.out.println("Vehicle Type: " + super.vehicleType);
11         System.out.println(x: "Insurance Status: Active");
12     }
13
14     Run | Debug
15     public static void main(String[] args) {
16         Insurance i = new Insurance();
17         i.display();
18     }
19 }
```

OUTPUT:

```
[Running] cd "c:\Users\Arpit\java_assignments\" && javac Insurance.java && java Insurance
Vehicle Number: MH12AB1234
Vehicle Type: Car
Insurance Status: Active

[Done] exited with code=0 in 1.371 seconds
```
